Engine Lathes

The Model 2000 is ideally suited for toolroom, maintenance and production. The Lathe is designed and built in North America.

The Model 2036 Sliding Gap-Bed Lathe has capabilities far exceeding those of a conventional lathe.

The Model 1600 is one of a new, modern generation of standard engine and toolroom lathes ,designed to produce space-age parts with soace-age tools.

The Model 1340 has an established reputation throughout North America in toolrooms, workshops and schools across the continent.
