

L.K. MACHINERY, INC

Exceptional Performance at an Unexpected Price

Introducing the new **MillMaster 3000 series** from LK Machinery!

Ultra high speed CNC compact milling centers with bridge type one piece casting design which are ultra rigid with excellent positioning.

CMC-3550P

Unmatched High Performance for Mass Production

This machine is the combination of a sturdy mold making structure with the high acceleration / deceleration features of a tapping center.

3.2 Second Pallet Change Time

The entire pallet change unit is anchored on the machine eliminating overhang. The center hole is in the middle of the pallet changer providing easy access to piping and wiring.

CMC-3555

High Speed 5-Axis Simultaneous Machining

Used in production of complicated molds and dies for aerospace, medical equipment, optical-electronics, semi-conductor and all high precision industries, the CMC-3555 is the technology flagship model of LK and the machine with the best price-performance ratio.

The LK CMC-3555 is the ultimate solution for sophisticated parts machining. The integrated rotary / tilting table provides accuracy, stability and flexibility.

CMC-3550

High Speed 5-Axis Simultaneous Machining

The Answers to All Aspects of 3-Axis Milling.

The LK CMC-3550 is designed for a universal approach to mold making and general processes requiring small to medium sized parts.

Features of Fixed Bed Structure

The load for all moving parts is consistent, providing high precision stability. The design of the machine allows for easy accessibility to the work table and wide flexibility of customization with fixtures or molds.
