

Your Company has a plant you are about to close!

Here's a hypothetical situation that is commonplace in today's manufacturing world:

Your company has just completed the decision making process needed to close an underperforming plant. The plans are put in place, and the plant is closed! No one has discussed steps beyond this point, and the plant sits idle for a year or more!

After that year somebody decides that the plant needs to get off the books **NOW!**
All machines need to be disposed of, property sold, forget it ever existed.

You begin the process of trying to figure out how this will work. Should everything just be scrapped? Demo the building? Because there was no thought put into the complete exit strategy from the beginning, things are much tougher now!

There is definitely a better approach, and BTM Industrial is there to assist you with every step of this process. Even if you are the guy in the scenario, it isn't too late to call today. **NO COMPANY IN THE COUNTRY IS BETTER SUITED TO MEET YOUR NEEDS!**

The course of action we would recommend in this scenario is as follows:

1. Determine the viability of all equipment for resale and or scrap.
2. Equipment that will not produce more than scrap value at auction is disposed of immediately, actually producing a better financial return for you while getting it dealt with in a more timely fashion.
3. Reselable items: machinery, accessories, plant equipment, ect. is prepared for sale.

This approach allows us to go from contract signing to an empty facility in as little as three months! We understand the need for speed, while getting you the best return on your capital assets!

www.absolutemachine.com

Absolute Machine Tools provides advanced metalworking solutions and comprehensive services for production machining, mold/die machining, high-speed production turning and much more. Absolute has become a leading importer and distributor of high-performance CNC machine tools. For 25+ years we have been helping machine shops and manufacturing facilities improve their production processes to be more competitive in a tough global environment.

Look no further! We offer exceptional value and performance along with unsurpassed applications service and support!

Our products include:

- 5-Axis Machining Centers
- Automation (Loading)
- Boring Mills
- Broaching Machines
- Chambering Machines
- Deep Hole Drilling Machines
- Defence Applications
- Double Column Machine Centers
- Drill / Tap Centers
- EDM
- Firearm Applications
- Flat Bed Turning Centers
- Hole Finishing
- Horizontal Turning Centers
- Horizontal Machining Centers

AND MUCH MORE!

Introducing AH06/100 Horizontal Lathe for Oil & Gas Industries

AH06/100 is specifically designed and built to provide a direct replacement for popular heavy duty CNC turning centers manufactured in the 1980's. While current production large CNC turning centers may lack the power and rigidity of older machines, the AH series delivers that special level of performance that can't be found on other modern turning centers.

| SLANT BED | Bar Capacity | Max. Cutting | Cutting Lengths |
