

Specializing in Quality Production; CNC, Milling & Drilling Machinery

LEE STEVENS MACHINERY

Since 1948, we have supplied quality, late-model used tool room, production and CNC machinery to manufacturers in the United States (and abroad). A 3rd-generation family business, we assist our clients with tooling up for a job or replacing existing capital equipment while avoiding expensive new machinery. Our services include reconditioning, appraising, brokering, marketing, leasing and financing a wide variety of machine tools. We also purchase one piece or a complete plant.
