## One Source for All your Machining Needs

U.S. Equipment Co. provides engineered Turnkey machine solutions. If you have a machine that requires rebuilding, retooling or modifications, U.S. Equipment Company will bring it up to date, including the design and installation of new electrical, hydraulic and mechanical components. We also buy & sell production machinery and manufacturing lines. Plant liquidations and appraisals are additional services offered by U.S. Equipment Company.

Roto-Flo manufactures new and remanufactured Turnkey Spline and Thread rolling machines. Our Spline & Thread rolling systems are fully integrated machines with the latest programmable controllers and diagnostic systems to produce cold formed splines, grooves, worms and threads.

Website: [www.roto-flo.com](http://www.roto-flo.com)

Cellular Concepts (CellCon) manufactures New 3-axis machining modules and machining centers. These modules can be incorporated into highly flexible self contained machining systems, including "Flexible Rotary Cells" and "Linear Transfer Lines". Website: [www.cellcon.com](http://www.cellcon.com)

### Merrifield Machinery Solutions:

**Providing Innovative Machine Tool Solutions and World Class Service**  
 Merrifield Machinery Solutions has been delivering Machinery Solutions to Michigan's largest manufacturers and innovative machine shops since 2006. They sell and support World Class CNC Machine Tools and have been helping customers make sound capital investments, control costs and extend the life of equipment to meet production demands. The companies they represent are among the best in the world, but even when any machine tool is utilized the way it's supposed to be, it will eventually need service and repair. Merrifield has that covered, too. Their Service Department, which boasts 18 full-time trained technicians, may very well be the best reason to purchase your next machine from them! With a 14,000 square foot facility in Pontiac, MI, complete with a 30-ton crane, MMS performs complete machine refurbishments, total rebuilds, as well as multi-axis head repairs.

With specialists in mechanicals, electronics, controls/retrofits, and metrology/geometry, they can offer the highest level of service in the state of Michigan. Their services include everything from small machining centers to large boring mills, 3 and 5+ axis machines, electrical diagnostics and repair, and much more.

The machine lines Merrifield sells include SNK, Yama Seiki, Nigata, Awea, Goodway, SNK Nissin, C.R. Onsrud, Samag Group and Fooke. Merrifield is also an authorized dealer for Heidenhain and Centroid controls and components.

**OEMs everywhere are increasingly depending on their supply chains to make more challenging precision components in all types of tough materials, and at a competitive price.**

It's a demanding environment. As a solution, many of these shops are installing Mitsui Seiki horizontal and vertical 4- and 5-axis CNC machining centers. Why? Capability. Cost. Reliability. They know they need the most precise machine they can buy. They understand how our hand scraping gets them the absolute best volumetric accuracy. They know our machines are designed and built so well they get more life out of them – typically four times longer than most other brands. Robust construction techniques and materials, along with heavy duty components, provide the rigidity and ruggedness they need – from the first roughing operations to the final finishing cuts. They experience our support organization, and recognize what a difference this makes in maintaining their business. For these shops, it just makes the most profitable sense to buy the best made machine tool to get the best made parts. To compete now and in the challenging years ahead, doesn't it make sense for your shop, too? Invest wisely, and look for low operating costs with high returns. Take a closer look at Mitsui Seiki. Contact us today.

When Good Enough is Not Good Enough.

# OmniTurn

Fast... Precise... Affordable...

## New Generation CNC!

Three axis synchronized; plane-switching for milling;  
color LCD display; faster servo refresh;  
USB program input; plug-compatible  
with existing OmniTurn CNC's.

**GT-75 w/ZipLoader shown**  
Optional ZipLoader Specs:  
1/8" - 1" dia; 1.5" - 26" long; 4 sec load/unload  
Optional Parts-Hopper will hold hundreds of parts

OmniTurn has been building precision CNC slides in America for 23 years.

Ten models to choose from including fully enclosed GT-75, quick setup GT-Jr and retrofit attachments for most popular bench lathes from \$14,995

**OmniTurn** is a product manufactured by NC Electronics, Inc. who have been building precision CNC turning machines since 1987, beginning with CNC conversion kits for chucks and toolroom lathes. NCE was among the first in the machine tool industry to incorporate PC based CNC technology. NCE has always used the highest quality ground ballscrews and linear guides available. The machine base, slides and tooling plate are precision-machined in America.

In 1994 we began producing the OmniTurn GT-75. The GT-75 is a fully enclosed slant-bed turning center with American-made high-precision spindle, pneumatic collet closer, cool oil coolant, and work lamp.

In 1998 we introduced the OmniTurn GT-Jr. The GT-Jr has the same rugged and precise base, table and spindle as the GT-75, but without the enclosure, which allows for very fast change-over and setup.

OmniTurns are fast, precise and affordable. They are also reliable, easy to operate and inexpensive to maintain. There are thousands of OmniTurns in use throughout the country earning a spot for large corporations as well as 'garage-shops'.

This machine is built entirely at our factory in Oregon. Easy setup! The GT-75 is shipped in a wooden frame as illustrated, for easy pallet-jack maneuvering into place in your shop. Air requirements are minimal: less than 3cfm at 80psi. Electrical power requirements are 220vac single or three-phase, 20 amps. The machine does not need to be bolted down. Leveling pads are included; simply adjust each pad to stabilize the machine. You can set up your OmniTurn GT-75 with no special tools, and be ready to run parts very quickly.

# L.K. MACHINERY, INC

Exceptional Performance at an Unexpected Price

## LK TC-510 AUTOMATED DRILLING CENTER

The LK TC-510 Automated Drilling Center can be programmed to drill unattended for a specified quantity of parts. The integration process includes programming the TC-510 to accept as many parts as necessary to fill the table handled by the robot. The process includes placing the parts onto a rotary fixture, machining the parts and then having them unloaded back into their respective trays.

**CNC MACHINE + AUTOMATION = THE LK ADVANTAGE**

## Smart Sawing Solutions Mean Superior Sawing Profitability

Superior sawing technology and heavy-duty **material handling systems** can improve efficiency and increase productivity. We can help you create a solution for your material flow featuring input and output roller conveyors, transfer systems, sorting units, and transport systems to run your sawing operation at full capacity while reducing manpower and labor costs. It's all part of our commitment as an integral business partner in your operation.

**Work smarter and let us do the heavy lifting.**  
Find out more about our complete sawing systems to increase your productivity and profitability.

On-time delivery of heavy-duty, hi-performance, innovative equipment with the best-value, selection, and service in the industry!

#### Lift Those Loads!

Take the work out of lifting loads with this heavy-duty table.

HEAVY-DUTY SCISSOR LIFT TABLE

Capacities from 500 to 50,000 lbs.  
Table sizes from 24" x 36" to 96" x 240".  
Lifts up to 12" high.

#### GROUND ZERO.

This scissor lift table lowers flush to ground level for smooth, drive-on loading.

#### 360° Rotation 100% Efficient.

Provides flexible use in a fixed location.

FLOOR-MOUNTED JIB CRANE

Capacities from 500 to 10,000 pounds.  
Up to 20' spans and heights.  
Powered 360° also available.

#### THE ORIGINAL ZERO-LOW LIFT

ZERO-LOW LIFT

#### Rotate & Invert Loads with Ease!

#### Super Crane

This 3-in-1 crane offers versatility for getting the job done.  
2,000, 4,000, & 6,000 lb. capacities.  
Lift height up to 13 ft.  
Maximum mobility with pivoted steering handle.

SUPER-MASTER FLOOR CRANE

#### Take the Heavy Out of Duty!

Lift and transport up to 3 tons by simply pushing a button.

REVERSIBLE BOOM CRANE

Capacities from 1,000 to 20,000 pounds.  
Lift height up to 14 feet.  
Telescopic boom increases reach.

#### Effort Less.

Bring the big jobs down to size.

HYDRAULIC SCISSOR LIFT WITH ROTATING CONVEYOR TOP

Capacities from 500 to 50,000 lbs.  
Raised height up to 70".  
Optional wheels are also available.

#### Your Forklift will Never be the Same.

Convert your forklift into an instant crane or personnel lift.  
Capacity - 3,000 lbs.  
Reach - 150"  
150° rotation on forklift or 360° when floor or truck mounted.  
Fully powered and ready for action!

ROTATING JIB-MASTER

#### Ground Zero. Then Lift and Tilt.

ZERO-LOW LIFT & TILT  
Capacities from 500 to 4,000 lbs.  
Lifts from ground zero to 46" high.  
Table tilts 45°.

# Every Toolbox Needs...

## **Tap Extractors & Tap Extensions**

*Performance professionals have depended on high-quality Walton tools since 1908.*

**Tap Extractors** will remove broken taps simply and safely, without drilling, lasers, damaged threads, scrapped parts or repair inserts. Available in every tap size, both inch and metric.

**Tap Extensions** will extend the reach of regular-length taps and allow tapping in deep holes and awkward locations. Square and round sockets conform to leading tap sizes, and these tools are suitable for both machine- and hand tapping.

*Tapping into good ideas for over 100 years*

# PHASE CONVERTERS

## Need 3-phase power?

Convert your single-phase utility  
power into 3-phase power!

A.S.

"..thanks for taking your time to  
listen and help me with the correction  
of my phase converter issue!"

**-your service rocks!"**

A.K.

"...I will gladly tell anyone about your products."

M.

"Yours will be the only brand I look at in the  
future."

## Phase Converter Advantage:

Phase Converters provide three phase power from single phase lines at a fraction of the installation **and** operating cost of running three phase utility lines to your property.

## Phase-A-Matic, Inc. Advantage:

Experienced in phase conversion systems since 1965. We have the right converter for your application, from basic to the most sophisticated of modern machinery, including for high end CNC/PLC and other voltage-sensitive equipment. We keep a continuous stock of most models of converters, including large 75 and 100 HP Rotary Converters. We also supply transformers and custom made converters.

## Rotary Converter

**FULL** power output

Runs heavily loaded  
applications

Runs all load types;  
motor, resistive &  
transformer

Quiet operation

Runs multi-speed  
machines/motors

Runs multiple motors  
and load types

## Static Converter

For light to  
moderate loads

Motor loads only

2/3\* rated HP output

Simple installation

Immediate delivery  
from stock

\*Refers to wye-wound motors;  
delta-wound motors run at  
50% rated HP. Delta-wound  
motors are rare in the USA -  
usually found on Italian and German machines.

Since 1965

Phase-A-Matic, Inc.  
has been designing  
and producing reliable phase  
converters for every need. Let us  
help get your machinery up and  
running. Call or go online today.

# PHASE-A-MATIC

CAGE# 66U31

1-800-962-6976

Our technical support  
team is dedicated to  
assist you with every aspect of  
your phase converting needs.  
We utilize a huge knowledge  
base of information, expertise  
and experience to insure your  
phase conversion success.

## 2 MAJOR AUCTIONS COMING IN MEXICO

### ONLINE

Due to complete plant closure

Otis

A United Technologies Company

Mon., Nov. 11th thru Tues. Nov 19th  
Nogales, Sonora, Mexico

### Surface Mount Lab & Test Equipment

- DEK #710 Automatic Paste Dispenser
- Panasonic Paste Dispensers
- Schleuniger Wire Strippers
- Panasonic Pick & Place Machines
- Soltec Wave Solder
- GPD Component Formers
- Universal VCD Component Placement Machine
- Nordson Conformal Coating Machines
- Test/Measurement Equipment

### WEBCAST/ONSITE

Due to complete plant closure

Otis

A United Technologies Company

Wed., Nov. 13th, 10AM Local  
Nogales, Sonora, Mexico

### Fabricating Equipment from a World Leading Elevator Manufacturer

- CNC Press Brakes
  - Cincinnati 350 Ton x 12'
  - Cincinnati 230 Ton x 10'
  - LVD 350 Ton x 14'
  - LVD 240 Ton x 14'
  - LVD 240 Ton x 13'
  - LVD 240 Ton x 10'
- Cincinnati 12' x 1/4" CNC Shear
- CNC Plasma Flame Cutters
- Finn Power CNC Punch/Lasers
- ITW Gema & Denco Electrostatic Paint Booths
- Norlok Surelok Clinching Machines
- RAS CNC Folder
- CNC Routers
- Electrical Test Lab Equip.
- Test/Measurement Equip.
- Pemserter 2000 Insertion Press
- Tool Room Equipment
- Miller Arc Welders
- Crane Cells
- Air Compressors
- Forklifts
- Pallet Racking
- Tooling Cribs
- Pallet Racking
- Office Equipment
- Cafeteria

Auctions and Liquidations

[www.BTMIndustrial.com](http://www.BTMIndustrial.com)

Dedicated to getting our clients the most for all their asset recovery!

Welcome to BTM Industrial, the industrial auction firm that turns your assets into dollars! Our knowledgeable staff provides years of combined experience and serves as a single point of contact for all current and potential needs. We are a complete turn-key operation that's focused on the intricate details necessary to succeed. No facility is too large or too small for us. We specialize in the Metalworking Industry and believe there is no company better suited to meet your complete needs. We offer full auction services as well as periodic consignment auctions where we can sell one or several machines, tooling, accessories and MRO! So whether you just have an old VMC to sell or a complete plant, we can put the most dollars in your pocket!
