

# INDUSTRIAL TIMES

Serving The Midwest's Industrial Metalworking Community

www.industrialtimesinc.com

\$2.95

July 2014

## Welcome to the Revolution!

Industrial Times was created to give a reliable and cost effective media to companies looking to advertise goods and services to the Metalworking Community in the Midwest. Our magazine is published Monthly. We have a database of app. 28,000 decision makers in the metalworking fields throughout MI, IN, IL, WI, OH. If you ever have a need to advertise, we would love to accommodate. We have developed a FAIR PRICING GUARANTEE, which basically means we don't dicker, our prices are extremely fair, but firm. You always get the best rate possible! We are developing our online presence, and invite you to go and check it out at [www.industrialtimesinc.com](http://www.industrialtimesinc.com). You will find one of the best auction calendars in the industry, updated daily, and again dedicated to metalworking auctions only. In the coming months we will be adding some exciting things to the website as well! Please contact us at any time with suggestions to improve our publication or website!

# Specializing in Quality Production; CNC, Milling & Drilling Machinery

## LEE STEVENS MACHINERY

Since 1948, we have supplied quality, late-model used tool room, production and CNC machinery to manufacturers in the United States (and abroad). A 3rd-generation family business, we assist our clients with tooling up for a job or replacing existing capital equipment while avoiding expensive new machinery. Our services include reconditioning, appraising, brokering, marketing, leasing and financing a wide variety of machine tools.

We also purchase one piece or a complete plant.

**WHEN GOOD ENOUGH  
IS NOT GOOD ENOUGH**

OEMs everywhere are increasingly depending on their supply chains to make more challenging precision components in all types of tough materials, and at a competitive price.

It's a demanding environment. As a solution, many of these shops are installing Mitsui Seiki horizontal and vertical 4- and 5-axis CNC machining centers. Why? Capability. Cost. Reliability. They know they need the most precise machine they can buy. They understand how our hand scraping gets them the absolute best volumetric accuracy. They know our machines are designed and built so well they get more life out of them – typically four times longer than most other brands. Robust construction techniques and materials, along with heavy duty components, provide the rigidity and ruggedness they need – from the first roughing operations to the final finishing cuts. They experience our support organization, and recognize what a difference this makes in maintaining their business. For these shops, it just makes the most profitable sense to buy the best made machine tool to get the best made parts. To compete now and in the challenging years ahead, doesn't it make sense for your shop, too? Invest wisely, and look for low operating costs with high returns. Take a closer look at Mitsui Seiki. Contact us today.

Superior Technical Ceramics, St. Albans, VT

**What are the right parts for our machines?  
The valuable ones. Better machines make better parts.**

All models shipped directly from WI manufacturing plant. Pricing is for single phase. For 3 phase needs, please call to check for additional costs!

**Midway Machinery | 616-608-7606**

Ellis band saws are available in eight different models using blades from 1/2" to 1 1/4". Our most popular band saws are Model 1600 and Model 1800. The 1600 band saw is a good saw for all general sawing. This band saw can be easily moved to a different job site. If you are looking for a stationary band saw the 1800 band saw is a good option.

**Standard features on all Ellis bands saws include:**

- Band saw head moves left or right for angle cutting
- One-step conversion from horizontal saw to vertical saw on portable models
- Built-in protractor for fast and accurate selection of angles
- Stock remains in one position for all cuts
- Blade cleaning

**Model 1600**

# L.K. MACHINERY, INC.

*Exceptional Performance at an Unexpected Price*

## LK TC-510 AUTOMATED DRILLING CENTER

The LK TC-510 Automated Drilling Center can be programmed to drill unattended for a specified quantity of parts. The integration process includes programming the TC-510 to accept as many parts as necessary to fill the table handled by the robot. The process includes placing the parts onto a rotary fixture, machining the parts and then having them unloaded back into their respective trays.

Downstream Production Equipment For the Pipe, Profile, and tubing Industry

## PUSH IT, PULL IT, MOVE IT...

For over 50 years, Versa Machinery has been producing Pinch Roll and Caterpillar Puller / Feeder assemblies in a variety of belt widths and traction lengths. The Puller / Feeders can be adapted and built into process machines that require product movement. Provide your own motor and drive package, or Versa Machinery can configure one for you. Save design time and money by using off-the-shelf Puller / Feeder assemblies.
