Midway Machinery | 616-608-7606

Ellis band saws are available in eight different models using blades from 1/2" to 1 1/4". Our most popular band saws are Model 1600 and Model 1800. The 1600 band saw is a good saw for all general sawing. This band saw can be easily moved to a different job site. If you are looking for a stationary band saw the 1800 band saw is a good option.

Standard features on all Ellis bands saws include:

- Band saw head moves left or right for angle cutting
- One-step conversion from horizontal saw to vertical saw on portable models
- Built-in protractor for fast and accurate selection of angles
- Stock remains in one position for all cuts
- Blade cleaning

Model 1600

10" Round at 90°
8" Pipe at 90°
11" Flat at 90°
6 7/8" Round at 45°

Absolute Machine Tools provides advanced metalworking solutions and comprehensive services for production machining, mold/die machining, high-speed production turning and much more.

Absolute has become a leading importer and distributor of high-performance CNC machine tools.

For 25+ years we have been helping machine shops and manufacturing facilities improve their production processes to be more competitive in a tough global environment.

Look no further! We offer exceptional value and performance along with unsurpassed applications service and support!

Our products include:

- 5-Axis Machining Centers
- Automation (Loading)
- Boring Mills
- Broaching Machines
- Chambering Machines
- Deep Hole Drilling Machines
- Defence Applications

- Double Column Machine
- Centers
- Drill / Tap Centers
- EDM

- Firearm Applications
- Flat Bed Turning Centers
- Hole Finishing
- Horizontal Turning Centers
- Horizontal Machining
- Centers

AND MUCH MORE!

Introducing AH06/100

Horizontal Lathe for Oil & Gas Industries

AH06/100 is specifically designed and built to provide a direct replacement for popular heavy duty CNC turning centers manufactured in the 1980's. While current production large CNC turning centers may lack the power and rigidity of older machines, the AH series delivers that special level of performance that can't be found on other modern turning centers.

All Precision CNC Machining Companies Are NOT Created Equal

As a premier precision CNC machining service company, our mission is simply to serve you! Without you, we cannot accomplish the things we do. We are motivated by your success!

We recognize that you literally have thousands of choices when it comes to selecting a supplier to provide you with precision machining services. However, we also know that not all CNC machining companies are built from the inside-out to provide you with the foundation for everything that you need.

Industries Served:

**Transportation & Industrial • Medical
Aerospace • Security & Defense •
Power & Energy**

Bradhart Products serves a variety of today's industries that require tight tolerance work. In fact, we can hold our machining tolerances to $\pm .0001"$ or even $\pm .00001"$ with the appropriate grinding processes.

Call For Price

The first thing to wear out on a CNC machine is often the drawbar!

Belleville springs hold the arbor in the spindle during cutting AND they are often the first thing to wear out on a CNC Machining Center. Just one broken spring has a huge effect on clamping force. Chatter, low tool life, poor finishes, less repeatability, and scrap parts are the result.

Eventually a tool may pull out during a cut, causing major damage to the machine and spindle.

Machines are never the same after a crash

Test CAT, BT, ISO, HSK, CAPTO and others

Drawbars seldom get the attention they deserve. Checking it requires a specially designed tool. The Clamprite Gage simulates a tool in the spindle, reads directly in pounds of force, and checks your drawbar in less than a minute.

Thousands of shops in the U.S. and around the world use the Clamprite Gage.

Customers say "it paid for itself the first time we used it"

Find out if your drawbars still Clamprite. Call today!

www.clamprite.com

Ph: 775-246-5100

Toll Free: 1-866-THE GAGE

CLAMPRITE® Spindle Drawbar Force Gage

Protect Your Spindles

Avoid Unscheduled Downtime

Increase Cutter Life

Accuracy
Traceable to
NIST

Works with all types of pull studs

The Clamprite Gage is the most economical tool for checking the drawbar force of your machine. Kits are furnished in a metal tool box with tray, and a foam fitted liner to protect the gage head.

Select your kit by spindle type and maximum drawbar force you will be testing. Go to www.clamprite.com for more information.

Downstream Production Equipment For the Pipe, Profile, and tubing Industry

PUSH IT, PULL IT, MOVE IT...

For over 50 years, Versa Machinery has been producing Pinch Roll and Caterpillar Puller / Feeder assemblies in a variety of belt widths and traction lengths. The Puller / Feeders can be adapted and built into process machines that require product movement. Provide your own motor and drive package, or Versa Machinery can configure one for you. Save design time and money by using off-the-shelf Puller / Feeder assemblies.

USA Industrial Scrap

Coast to Coast We Pay The Most

We Specialize in Buying Problem CNC's and
Automated Machining Lines

USA Industrial Scrap is focused on providing high-quality service and consumer satisfaction.

We will do everything we can to meet and exceed your expectations.

If you use a local scrap company, you are losing \$500+ PER MACHINE!!!

Three reasons why nobody can beat our prices:

- On Staff Insured Riggers
- Our own Tractors / Trailers
- Quick Turnaround

ROTOMEK
ADVANCED MACHINE REPAIR SOLUTIONS

PROFESSIONAL RELIABLE
MACHINE REBUILDER
FROM GROUND UP

**Worlds industry leading emergency
machine & machine tool specialists.**

ROTOMEK's breath of experience covers old-world to high-tech, domestic to international makes/models, including the following:

- Machine Tool Disassembly and Reassembly
- Way Work (including scraping, alignment, and linear way replacement)
- Spindle Repair and Exchange (any size make or model)
- Ball Screw Repair and Re-development (any size make or model)
- Gear Mfg. & Gearbox Service's (any size make or model)
- Hand Scraping
- Machining (Manual & CNC)
- Grinding O.D & I.D.
- Milling/Drilling (Manual & CNC)
- Precision Welding (Robotic and Hiliarch)
- Drive Repair & Upgrades
- WorkHolding Sales and Repair

BELDEN

Precisely what you need.
Precisely when you need it.

Leveler-Strength Custom Precision Universal Joints & Drive Shafts Specifically Designed for the Metal Working Industry

Outperforms Competition

- Increased torque capacity, extended operating life
- High-grade alloy steel; enhanced yoke design and mechanical properties
- Dry-lubricant plating, lubricant-retaining boots or grease fittings for superior performance
- Also available as precision telescoping drive-shaft assemblies

Designed for harsh operating conditions
for metal working applications

Wide range of bore configurations
and outside diameter sizes

Belden's extensive line of Custom Universal Joints and Drive Shaft Assemblies satisfy a broad spectrum of system design requirements in today's complex manufacturing environments. The Belden Universal joint is recognized on the worldwide market as a reliable, high-quality, cost-competitive universal joint. Belden's highly-skilled engineers custom-design and manufacture universal joints capable of handling any application.

IDEAL FOR 2ND OPERATION WORK!

SMALL MACHINES
BIG ATTITUDE!

Sherline for 2nd Operation Work

The small size, mobility and affordability of Sherline CNC machines make them ideal for small parts 2nd operations work in the industrial machine shop. Why tie up a \$60,000+ machine to make small parts that can easily be made on a compact, mobile machine at a fraction of the cost? Visit sherline.com/videos to view a video demonstrating how Sherline CNC machines can speed up your machining process at a huge savings.

Exceptional Quality

Sherline tools offer the accuracy, power and rigidity to easily handle the most challenging machining operations. Our machines offer ground steel dovetailed lathe beds and mill columns for rigidity, anodized aircraft grade aluminum extrusions for durability, powerful DC spindle motors for cutting harder metals, and preloaded spindle bearings and adjustable gibbs on all axes for long lasting accuracy. Sherline has always made it a priority to maintain the highest possible quality and continues to manufacture and provide unparalleled service & support directly from our modern 66,000 square foot production facility in Vista, California - USA.

INDUSTRIAL TIMES

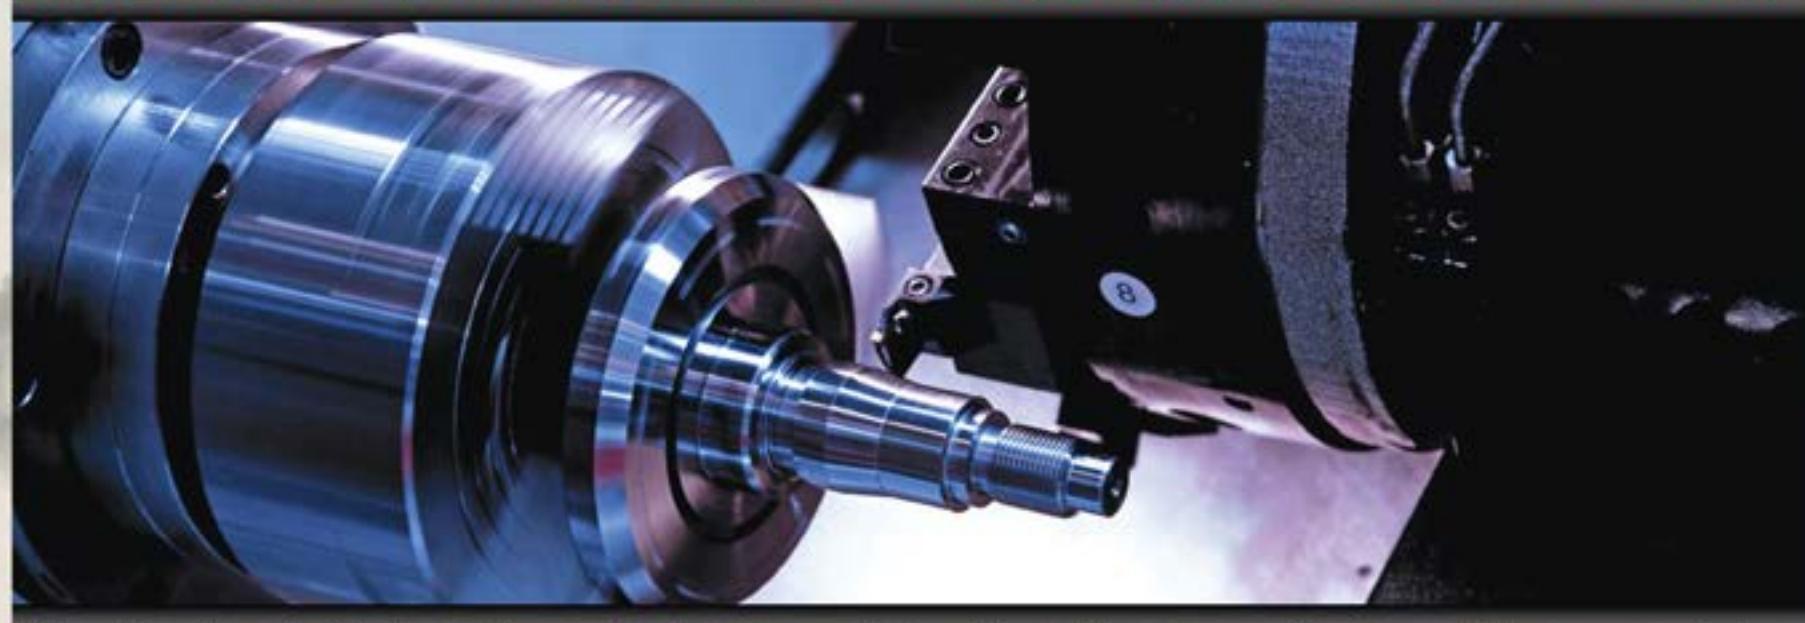

Serving The Midwest's Industrial Metalworking Community

Industrial Times was created to give a reliable and cost effective media to companies looking to advertise goods and services to the Metalworking Community. We have a database of app. 28,000 decision makers in the metalworking fields throughout MI, IN, IL, WI, OH. If you ever have a need to advertise, we would love to accommodate. We have developed a FAIR PRICING GUARANTEE, which basically means we don't dicker, our prices are extremely fair, but firm. You always get the best rate possible! We are developing our online presence, and invite you to go and check it out at www.industrialtimesinc.com. You will find one of the best auction calendars in the industry, updated daily, and again dedicated to metalworking auctions only. In the coming months we will be adding some exciting things to the website as well! Please contact us at any time with suggestions to improve our publication or website!

HEMLY TOOL. YOUR CUTTING TOOL SPECIALISTS FOR OVER 30 YEARS

Three decades – that's a lot of time to develop strong relationships with customers like you and the top manufacturers of tools for the machining industry. Our combined insights into your production needs and the brands that we represent ensure that our sales specialists can connect you with high-quality products to meet your precision machining needs.

We carry a wide array of the tools and products you need to succeed.

- Carbide Inserts for milling, turning, grooving and threading applications
- Carbide End Mills for superior performance, whether its roughing or finishing
- Tool Cabinets to protect your investment in tools and keep you organized and productive
- Tool Holders to ensure accuracy for a wide range of machining operations
- Vises to work with everything from small milling machines to high-speed CNCs
- Drills & Taps to help you achieve the productivity and finish you need
- Precision Tools to help you meet and measure the demanding tolerances required of your final products
