\$2.95

December 2013

The Tax Man Cometh!!! NOW IS THE TIME TO **BUY!**

You have until Dec. 31st
to Qualify for
BIG TAX SAVINGS

2013 Expense Deduction Limit has been
raised to \$500,000 for NEW and
USED Equipment

The American Taxpayer Relief Act renews the 2010 - 2011
year expense limit of \$500,000 through 2013.

2013 Limit on Capital Purchases - \$2 Million
Section 179 Threshold for the total equipment and software
that can be purchased has significantly increased to \$2 Million.

2013 - 2014 Bonus Depreciation - 50%
New Law states 50% "Bonus Depreciation" on qualified assets
placed in service in 2013 and 2014.

INDUSTRIAL TIMES

Serving the Midwest's Industrial Metalworking Community

Welcome to the Revolution!

You've probably never seen this publication before, since this is our first full scale distribution. Industrial Times was created to give a reliable and cost effective media to companies looking to advertise goods and services to the Metalworking Community in the Midwest. Our magazine is published Monthly. We have a database of app. 28,000 decision makers in the metalworking fields throughout MI, IN, IL, WI, OH. If you ever have a need to advertise, we would love to accommodate. We have developed a FAIR PRICING GUARANTEE, which basically means we don't dicker, our prices are extremely fair, but firm. You always get the best rate possible! We are developing our online presence, and invite you to go and check it out at www.industrialtimesinc.com. You will find one of the best auction calendars in the industry, updated daily, and again dedicated to metalworking auctions only. In the coming months we will be adding some exciting things to the website as well! Please contact us at any time with suggestions to improve our publication or website!

DECEMBER SPECIAL YEAR END PRICING!

All Models shipped directly from WI Manufacturing plant. Pricing is for Single Phase. For 3 Phase Needs, please call to check for additional costs!

Midway Machinery | 616-608-7606

Ellis band saws are available in eight different models using blades from 1/2" to 1 1/4". Our most popular band saws are Model 1600 and Model 1800. The 1600 band saw is a good saw for all general sawing. This band saw can be easily moved to a different job site. If you are looking for a stationary band saw the 1800 band saw is a good option.

Standard features on all Ellis bandsaws include:

- Band saw head moves left or right for angle cutting
- One-step conversion from horizontal saw to vertical saw on portable models
- Built-in protractor for fast and accurate selection of angles
- Stock remains in one position for all cuts
- Blade cleaning

Model 1600

10" Round at 90°
8" Pipe at 90°
11" Flat at 90°
6 7/8" Round at 45°

Downstream Production Equipment For the Pipe, Profile, and tubing Industry

PUSH IT, PULL IT, MOVE IT...

For over 50 years, Versa Machinery has been producing Pinch Roll and Caterpillar Puller / Feeder assemblies in a variety of belt widths and traction lengths. The Puller / Feeders can be adapted and built into process machines requiring product movement. Provide your own motor and drive package, or Versa Machinery can configure one for you. Save design time and money by using off-the-shelf Puller / Feeder assemblies.

PHASE CONVERTERS

Need 3-phase power?

Convert your single-phase utility power into 3-phase power!

A.S.

"..thanks for taking your time to listen and help me with the correction of my phase converter issue!"

-your service rocks!"

A.K.

"...I will gladly tell anyone about your products."

M.

"Yours will be the only brand I look at in the future."

Static Converter

For light to moderate loads

Motor loads only

2/3rd rated HP output

Simple installation

Immediate delivery from stock

*Refers to wye-wound motors; delta-wound motors run at 50% rated HP. Delta-wound motors are rare in the USA - usually found on Italian and German machines.

Since 1965

Phase-A-Matic, Inc. has been designing and producing reliable phase converters for over 30 years. Let us help get your machinery up and running. Call or go online today.

PHASE-A-MATIC

CAGE# 66U31

1-800-962-6976

Phase Converter Advantage:

Phase Converters provide three phase power from single phase lines at a fraction of the installation and operating cost of running three phase utility lines to your property.

Phase-A-Matic, Inc. Advantage:

Experienced in phase conversion systems since 1965. We have the right converter for your application, from basic to the most sophisticated of modern machinery, including for high end CNC/PLC and other voltage-sensitive equipment. We keep a continuous stock of most models of converters, including large 75 and 100 HP Rotary Converters. We also supply transformers and custom made converters.

Rotary Converter

FULL power output

Runs heavily loaded applications

Runs all load types; motor, resistive & transformer

Quiet operation

Runs multi-speed machines/motors

Runs multiple motors and load types

Our technical support team is dedicated to assist you with every aspect of your phase converting needs. We utilize a huge knowledge base of information, expertise and experience to insure your phase conversion success.

OmniTurn

Fast... Precise... Affordable...

New Generation CNC!

Three axis synchronized; plane-switching for milling; color LCD display; faster servo refresh; USB program input; plug-compatible with existing OmniTurn CNC's.

GT-75 w/ZipLoader shown

Optional ZipLoader Specs:

1/8" - 1" dia; 1.5" - 26" long; 4 sec load/unload

Optional Parts-Hopper will hold hundreds of parts

OmniTurn has been building precision CNC slides in America for 23 years.

Ten models to choose from including fully enclosed GT-75, quick setup GT-Jr and retrofit attachments for most popular bench lathes from \$14,995

OmniTurn is a product manufactured by NC Electronics, Inc. who have been building precision CNC turning machines since 1987, beginning with CNC conversion kits for chucks and toolroom lathes. NCE was among the first in the machine tool industry to incorporate PC based CNC technology. NCE has always used the highest quality ground ballscrews and linear guides available. The machine base, slides and tooling plate are precision-machined in America.

In 1994 we began producing the OmniTurn GT-75. The GT-75 is a fully enclosed slant-bed turning center with American-made high-precision spindle, pneumatic collet closer, cool coolant, and work lamp.

In 1998 we introduced the OmniTurn GT-Jr. The GT-Jr has the same rugged and precise base, table and spindle as the GT-75, but without the enclosure, which allows for very fast change-over and setup.

OmniTurns are fast, precise and affordable. They are also reliable, easy to operate and inexpensive to maintain. There are thousands of OmniTurns in use throughout the country earning a profit for large corporations as well as 'garage-shops'.

This machine is built entirely at our factory in Oregon. Easy setup! The GT-75 is shipped in a wooden frame as illustrated, for easy pallet-jack maneuvering into place in your shop. Air requirements are minimal: less than 3cfm at 80psi. Electrical power

requirements are 220vac single or three-phase, 20 amps. The machine does not need to be bolted down. Leveling pads are included; simply adjust each pad to stabilize the machine. You can set up your OmniTurn GT-75 with no special tools, and be ready to run parts very quickly.

Spindle Drive Rebuilding

Mitsubishi Yaskawa Okuma Fanuc

Your spindle drive controller will be rebuilt by experienced technicians using our state of the art test & repair equipment, plus the highest quality parts, such as Nichicon high temp-long life capacitors and Orion high velocity-ball bearing fans. After rebuilding, your drive will be tuned and run in on one of our dedicated motor test stands. We ask for 2-3 days from date of receipt for the rebuild. Your CncDriveDoctors.com rebuild will carry a one year warranty.

Enjoy the confidence of long, trouble free, spindle drive operation with a CncDriveDoctors.com rebuild at the most competitive price!

We are CncDriveDoctors.com, an Eagle Concepts company.

CncDriveDoctors.com repairs, and supplies parts for, spindle drives, servo amplifiers, power supplies, encoders, monitors and more.
